Subject: [External] Draft 2022 QAP Documents
Date: Thursday, October 14, 2021 3:33:23 PM
Attachments: [image001.png](#)

In order to help the development community, we would like to request the following:

1. When a new Draft QAP is posted please send out notification via the email blast system notifying developers of the new posting;
2. Please leave all versions of the Draft QAPs and other items on the website until a Final QAP is posted so that developers have access to all draft versions of the documents during the public commenting period;
3. Please add the drafting date and/or draft version number to each of the draft documents posted so that it is clear, on the document, when it was created; and
4. Please use a different color ink when making changes from one draft document to another so that updated changes are easy to find.

Thanks,

Laura Nicholson
